A LITTLE BIT ABOUT US

At All Incompass, we specialise in supporting children's activity providers to deliver high-quality, inclusive provision, with a particular focus on SEND and accessibility.

Our team combines decades of hands-on experience running and supporting fully inclusive wraparound and activity settings, giving us a clear understanding of the real challenges providers face.

We don't just offer theory, we provide practical, proven strategies that help organisations build confident teams, support diverse needs, and create environments where every child can access and enjoy provision.

WHAT CAN WE DO FOR YOU?

Many local authorities are working to ensure their wraparound provision is accessible, inclusive, and sustainable for all children—including those with additional needs.

At All Incompass, we support regions by delivering a structured inclusion and SEND development programme, designed to help providers:

- Improve access for children with SEND
- Build staff confidence in supporting diverse needs
- Strengthen quality, compliance, and inclusive practice
- Create a provision that works for all families

Our approach focuses on real-world delivery, ensuring strategies are practical, achievable, and embedded into everyday provision.

INCLUSIVE PRACTICE & SEND DEVELOPMENT PROGRAMME

Through All Incompass, we offer a six-week group consultancy programme designed specifically to help providers strengthen their inclusive practice and SEND provision.

The programme focuses on the key areas providers need to confidently support all children:

- 1** **Creating Inclusive Environments**
- 2** **Understanding SEND in Wraparound & Activity Settings**
- 3** **Supporting Behaviour Through Understanding**
- 4** **Working in Partnership with Families & Schools**
- 5** **Building Team Confidence & Capability**
- 6** **Practical Strategies That Work**

WHO WILL DELIVER THE PROGRAMME?

The programme is led by Matt Ogle, Director at All Incompass, who is widely recognised for his work in inclusive provision and SEND support within wraparound childcare.

Matt leads one of the UK's largest fully inclusive wraparound childcare organisations, supporting children with a wide range of needs on a daily basis.

This hands-on experience ensures the programme is grounded in real practice, giving providers strategies that are proven to work in busy, high-pressure settings.

MATT OGLE 
Director at All Incompass

WHY CHOOSE OUR PROGRAMME?

Our programme is designed so that multiple providers across your region can develop their inclusive practice together, creating consistency and raising the standard of SEND support across local provision.

Providers leave with:

- Practical tools they can implement immediately
- Increased confidence in supporting children with SEND
- Clear next steps to continue developing inclusion
- A stronger, more accessible offer for families

This gives local authorities an efficient way to invest in long-term inclusive provision, not just short-term solutions.

THE COSTINGS

The programme is available for a fixed fee of £8,000, supporting up to 20 providers per cohort.

This enables multiple providers to strengthen their SEND and inclusive practice, creating a consistent, high-quality offer across your region.

If this could support your providers, we'd be happy to share a short overview of delivery.
